About

Established in 2009, **Scribe** delivers accurate and professional transcription and translation services to over 6,000 law firms, government agencies, and corporate clients.

We combine AI-powered tools with human expertise to provide reliable, cost-effective solutions for court proceedings, Alternative Dispute Resolution (ADR) hearings, or corporate documentation.

16 years of specialized experience in recording, transcribing, and management of court and arbitration proceedings. Our comprehensive services include consultation on recording equipment and technical operations and maintenance.

Complete Alternative Dispute Resolution (ADR) Solutions

International and Domestic Arbitration

As part of our commitment to providing complete ADR solutions, we offer the equipment, expertise, and personnel needed to ensure hearings are conducted smoothly and professionally, whether in Malaysia or abroad. Our end-to-end support helps clients conduct efficient and seamless proceedings at arbitration centres.

On-site AV Recording

Scribe uses the most advanced AV recording software available for capturing evidence.

It is designed specifically to capture, record, and playback proceedings to eliminate any loss of evidence and crucial information.

- Professional on-site recording setup handled by experienced Case Reporters.
- 4k Video and SHURE audio quality recordings
- Password protected recordings.
- Bookmark and Timestamp of Recordings for easy reference.

ScribeLive - Realtime Speech-To-Text

A realtime speech-to-text platform specifically designed for hearings with over **95% accuracy**.

- Instant speech-to-text transcription.
- Speaker identification enables parties to follow the transcript in real-time while making notes and comments.
- Supports English, Malay and more.
- Downloadable draft at the end of each hearing day.
- Cost Advantages at almost half the price of traditional transcription.

Real-time Services & EPE

International Case Reporters with over 20 years of experience, ensuring accurate transcripts for your hearings.

Access transcripts in real-time during proceedings with features such as exhibit linking, document tagging, annotation, highlighting, and collaboration with team members.

Further, our Electronic Presentation of Evidence (EPE) service is operated by our skilled operators who manage your documents providing fast, transparent, and reliable exhibit presentation during hearings.

NEW - ScribeLive Translate - Realtime Translation

A live AI-powered speech translation solution designed for multilingual hearings, conferences, and meetings.

- Instant spoken language translation into multiple languages.
- Supports major languages including English, Malay, Mandarin, Korean, Japanese, and more.
- Parties can read live translated text on screen in the language of their choice for improved engagement.
- Ideal for international arbitration, cross-border meetings, and global conferences.
- More cost-effective than simultaneous interpretation or manual translation setups.

Certified Translation & Interpretation

A team comprising of more than 20 certified translators and interpreters, specialising in a wide range of languages and dialects such as English, Malay, Chinese/Indian languages, Korean, Japanese and major European Languages.
