## Overview

**SCRIBE** has been preparing transcripts for Malaysian courts since 2009 and we currently serve over 5000 legal firms and government and corporate institutions.

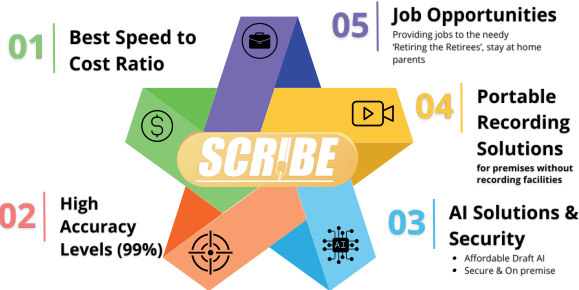

Established by a team of legal and business professionals, our mission is to provide accurate, affordable, and dependable transcription services anchored by uncompromising quality.

**15 years of specialized experience in recording, transcribing, and management of court and arbitration proceedings**

**SCRIBE** is proud of our collaboration with numerous global companies that come to us for our expertise and confidence in our delivery of high-quality services.

Through our dedicated efforts, we aim to assist companies, government sectors, and arbitration centers in meeting the diverse needs of their clientele.

## Complete Alternative Dispute Resolution (ADR) Solutions

### International and Domestic Arbitration

Through our dedicated efforts, we aim to assist arbitration centers in meeting the diverse needs of their clientele, thereby contributing to their objective of providing an efficient and effective arbitration experience on a global scale.

Recording for In-Person, Virtual and Hybrid Hearings

Manual Transcription - Realtime and Deferred

Translation and Simultaneous Interpretation

Electronic Presentation of Evidence (EPE)

AI transcription - Realtime and Deferred Voice to Text

ADR Administration and Case Management Software

Our comprehensive services include consultation on recording equipment and technical operations and maintenance.

## REAL-TIME SERVICES & EPE

International Case Reporters with over 20 years of experience, ensuring accurate transcripts for your hearings.

Access transcripts in real-time during proceedings with features such as exhibit linking, document tagging, annotation, highlighting, and collaboration with team members.

Further, our Electronic Presentation of Evidence (EPE) service is operated by our skilled operators who manage your documents providing fast, transparent, and reliable exhibit presentation during hearings.

## EPIQFAST INSTANTANEOUS SPEECH-TO-TEXT

A realtime speech-to-text platform specifically designed for hearings with over [95% accuracy](#).

- Instant speech-to-text transcription.
- Speaker identification enabling parties to follow the transcript in real-time, while making notes and comments.
- Separate audio channels for each speaker ensuring no overlapping of audio.
- Downloadable draft at the end of each hearing day.
- Cost Advantages at almost half the price of traditional transcription.

## INTERPRETATION & TRANSLATION

A team comprising of more than 20 certified translators and interpreters, specializing in a wide range of languages and dialects such as English, Malay, Chinese/Indian languages, Korean, Japanese and major European Languages.

## AI TRANSCRIPTION (SAAT)

**Scribe Advanced Automated Transcription (SAAT)** uses trained AI to accurately convert speech into text with over 95% accuracy, providing immediate draft transcripts to help legal professionals prepare efficiently for hearings.

- Generate transcripts within minutes from recorded audios/videos.
- Available on local or cloud servers.
- At half the cost of traditional transcribing.
- Supports English, Malay and over 20 languages.

## ON-SITE AV RECORDING

**Scribe** uses the most advanced AV recording software available for capturing evidence.

It is designed specifically to capture, record, and playback proceedings to eliminate any loss of evidence and crucial information.

- Professional on-site recording setup handled by experienced Case Reporters.
- 4k Video and SHURE audio quality recordings
- Password protected recordings.
- Bookmark and Timestamp of Recordings for easy reference.
